RADON MITIGATION

In the case of a proposed sale, if an inspection (as required in NABOR 4/1/2012 Standard D.2) reveals that presence of radon gas at or above EPA action levels (4.0 picocuries per liter of air) the Steeplechase Board of Directors must approve any remedial action agreed to by the BUYER and the SELLER prior to remedial action commencing, including any intended change to common elements.

If any remedial action results in modifications to the unit or common elements, the SELLER and the BUYER shall be financially responsible (see the Steeplechase Amended and Restated Declaration of Condominium I 1.3 (D) (OR: 4205 PG: 2493).

Evidence of a Collier County Building Permit for the remedial action also must be presented to the Board.

The business or person(s) who perform radon gas remediation must be certified by the Florida Department of Health, as required in Florida Statutes, Title XXIX, Chapter 404.056 (2).

If proper notice is not given to the Board, the Board at its election may approve or disapprove of the sale. Any sale entered into without Board approval may, at the option of the Board, be treated as a nullity, and the Board shall have the power to void the sale unless subsequently approved by the Board.
